PL000484	XD4 / XD3 ProtecTINT (Sun Reactive)	

PINLOCK INSERT

NOTE: A faceshield with pin, or a Max Vision Shield, is necessary for the installation of the pinlock insert.

VAS-Z VISORS (INCLUDES BROW VENTS)

Visors available for the SZ-R, CT-Z and CT-F. Three visor options available.

VAS-Z CLEAR

VAS-Z LIGHT SMOKE

VAS-Z SMOKE

Part No	VAS-Z Visors	RRP
AH031445	PINLOCK READY - CLEAR	
AH031446	PINLOCK READY - DARK TINT	
AH031447	PINLOCK READY - LIGHT TINT	

HELMET BAG / BACKPACK (CONVERTS TO BACKPACK)

Extremely well padded Helmet bag, provides protection from all sides. Large enough to fit even the largest Arai helmet size (even our motocross VX-Pro 4 and adventure XD-4 models with peak - just turn them around). Large molded handle is comfortable for carrying for long periods of time, or you might choose to use the padded shoulder straps, hidden in a zippered compartment for easy storage when not being used.

Part No	Helmet Storage	RRP
ARHBAG	ARAI HELMET BAG/BACKPACK	

PRO SHADE SYSTEM

ENHANCE YOUR RIDE

The Pro Shade System shield is available for any current Arai helmet using the VAS-V visor system (RX-7V, QV-PRO, CONCEPT-X, RENEGADE-V, CHASER-X & PROFILE-V).

When raised, the external lens works like a peak, minimizing glare when the sun is higher in the sky. Lowering the lens reduces the amount of light entering the helmet, which is particularly beneficial when the sun is lower in the sky. The lens can be quickly and easily raised and lowered by the rider depending on riding conditions. The external lens is designed to break away easily in the event of an impact and does not compromise the energy management capability engineered into the helmet shell.

The Pro Shade System not only offers a quick, convenient shade to block ambient light, but also acts as an aerodynamic peak to block sudden bursts of light with a subtle dip of your head, allowing your hands to stay on the bars, right where they need to be.

THE PRO SHADE SYSTEM IS DESIGNED TO BE AERODYNAMIC EITHER UP OR DOWN

PINLOCK READY BASE VISOR

PRO SHADE PINLOCK READY DARK TINT

PRO SHADE SYSTEM OPTIONS

The Pro Shade System is sold as a complete system with your choice of Dark Tint, Mirrored Silver, Mirrored Red or Mirrored Blue external lens installed. The Pro Shade ready base visor and external Dark Tint Sun Shield can both be purchased separately as a replacement part.

Part No	VAS-V Pro Shade System	RRP
AH011070	PRO-SHADE PINLOCK READY - DARK TINT	
AH011092	PRO-SHADE PINLOCK READY - MIRRORED SILVER	
AH011093	PRO-SHADE PINLOCK READY - MIRRORED RED

AH011071	PRO-SHADE PINLOCK READY (BASE VISOR ONLY)	
AH011073	PRO-SHADE (DARK TINTED SUN SHIELD ONLY)	
AH011138	PRO-SHADE PIVOT COVER (PAIR)	

QV-PRO MODEL, SHOWN WITH OPTIONAL PRO SHADE SYSTEM

there is a difference

ENHANCED VISION

WITHOUT SACRIFICING SAFETY

“ THE PRO SHADE SYSTEM IS ARAI'S ANSWER TO AN INTERNAL SUN SHADE.

BY HAVING AN EXTERNAL DROP-DOWN SUN SHADE, AS OPPOSED TO ONE POSITIONED INTERNALLY BETWEEN THE SHELL AND EPS LINER, IMPACT-ABSORPTION PERFORMANCE IS NOT DIMINISHED, ALLOWING OPTIMAL RIDER PROTECTION ”

PRO SHADE SYSTEM

The Pro Shade System has several positions to deal with different light conditions. Unlocking is easy; just pull the Pro Shade System forward, then it can be flipped down with a flick of the hand to act as an effective sun-visor. It is the complete all-weather system offering protection against sun glare, fogging and misting.

ADDITIONAL BENEFITS

- No fogging of tinted shield like 'internal sun-shield' designs
- Eliminates the need to carry a spare visor for night riding
- Provides a clearer view of motorcycle dash when riding
- Block overhead glaring street lights at night ('Up' position)
- Keeps the clear base visor clean for the ride home!

PRO SHADE SYSTEM
FITS ANY CURRENT ARAI USING THE VAS-V VISOR
*Will not fit EC, XD-4

ARAI GENERAL FEATURES

Five times inspected

Each Arai helmet goes through five separate quality-control departments: after the shell is made, after painting and graphic completion, after assembly and two in-process inspections.

Washable interior

The premium quality interior of any Arai helmet can be easily cleaned, in place, with mild soap and lukewarm water.

Handmade

It can take up to five years for our experts to earn the right to create an Arai shell. Each shell can take up to 27 steps and to build one Arai helmet will take about 18 man-hours.

All-day comfort

All-day comfort with the Arai interior fit and shape together with the finest liner materials and the extensive ventilation system. And thanks to the perfect balance and weight distribution of the helmet, you hardly notice you are wearing an Arai.

Penetration tested

All Arai helmets are penetration tested, although not required by European helmet standards. The Arai penetration test is performed with a 3kg test cone that strikes from a height of 3m on the helmet.

Double-D ring device

The flat and D-shaped rings fit smooth against the chin. No moving parts, no corrosion problems and just pulling the tab is enough to loosen the fastener.

Smooth shape, better protection

The smooth outer shell of Arai helmets is designed to glide without unnecessary resistance. You don't want to decelerate your helmet more than necessary. That's why all Arai vents and ducts are designed to break off during an impact.

Strong outer shell, soft inner shell

Arai uses a very strong outer shell to spread impact forces and a soft inner shell to absorb remaining energy. The multiple-density EPS inner shell is made using a unique technology of combining three to five densities in various areas as a single component.

Organic shape

The organic shape of an Arai outer shell offers a more natural appearance, seals better and conforms more to the head's natural shape for improved comfort, fit and to help minimize wind turbulence.

5-year limited warranty

All Arai helmets are warranted against defects in materials and workmanship, and are serviceable only for the properly fitted user for 5 years from date of first use, but no more than 7 years from date of manufacture.

Different outer shells

Unlike many other manufacturers Arai provides one size outer shell for each two-helmet sizes for most models. Together with different shaped outer shells for different models it is almost impossible not to find the fit you are looking for.

Arai In-house test

This Arai helmet is designed to meet the stringent Arai In-house criteria, in addition to the mandatory ECE 22-05 standard.
